

OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

THE REDCLIFF REVIEW, THURSDAY, NOV. 20, 1924.

Work Progressing on Bridge Over River

During the past week there have been all kinds of rumors about the bridge across the river at the south end of town. Some went so far as to say that work on it was discontinued because of misunderstandings and because the work done so far was a failure.

This is all nothing but gossip on the part of some whose words are the expression of their wishes.

The Review was in communication with Mr. Swan over the phone last evening and learned that everything that can be done is being done to rush the bridge through. The iron and bolts to be used are now being put in place. There has been some delay in putting them in place because of weather conditions. It was hoped that the ice would be sufficiently strong to carry heavy loads but the weather has been so bad that the bridge more convenient, but the mild weather has made this time. It is hoped that the bridge will be completed by the end of the week.

Mr. Smith, M. L. A., has been in constant communication with Mr. Swan and the work is proceeding to the entire satisfaction of the people of the town and the government officials.

The delay on account of the weather is unfortunate but it will not be long before the bridge will be open to traffic.

No doubt all concerned are anxious to see the bridge completed, especially as the crossing of the river at this season is both dangerous and inconvenient. However, we are assured that the work is being pressed with all possible speed.

Drouth In This District

H. Russell, of Calgary, an engineer of the Federal Irrigation Branch, is making Medicine Hat his headquarters while gathering data for a report on the drouth in this district.

Mr. Russell is working in conjunction with Mr. W. H. Sisson, engineer in charge of the experimental station at Brooks, making a survey of the water supply in the district.

No Sale of Timber To Private Persons

The proposed sale of certain areas of pulpwood land in northern Manitoba to private individuals has been rejected by the government.

The government is meeting with opposition from various organizations in the province, the latest of which is the Progressive Association.

The Progressive Association has held a conference at Brandon and has elected M. P. their leader.

The return to the province after the meeting at Brandon has been a success.

Appreciate Work of Local Bible Society

Mr. F. Cane, secretary of the local branch of the Canadian Bible Society, received word this week from Rev. H. D. May, District Secretary of the Association, acknowledging receipt of \$54.47 sent in 'our behalf' to a review of the Canadian work for a few weeks ago.

Mr. May has given the local association for its prompt and energetic drive and also asked that the association be conveyed to the collectors for their services. In doing his letter, Mr. May expressed the hope that the year which is before us will be more favorable for carrying on the work of the Bible Society. May greatest promise came to us in material things, that we may have larger means to develop the work of the Bible Society and to send forth the message of the Gospel, which is the only solution to the world's problem.

Plan to Relieve The Drought Area

Resulting from the recent survey of the drought areas in the Letseburg district, the Dominion Government has decided to formulate a concrete plan to deal with the problem in this district, and it is the intention of the cabinet to draw up an act which will solve this problem and which will be submitted at the session of the Dominion Government.

The act will provide for the bringing of all available lands in the district under cultivation, the development of such lands into marketable and profitable crops, and the carrying on of an immigration campaign by which the district will be repopulated.

The survey discloses the fact that while individuals of the farmer in the affected areas is large, the population is not nearly so dense as was at first estimated. The survey also found that the area is not so great as was at first estimated.

Nations Are Paying Debts to Canada

Some interesting figures in connection with post-war debts granted to Canada have been gathered by the Dominion Government.

The total of these advances was \$1,449,000,000, of which \$1,000,000,000 was from Belgium, \$200,000,000 from Rumania, \$200,000,000 from Greece, \$200,000,000 from Italy, and \$400,000,000 from the United States.

Interest received from France has been \$1,500,000,000, from Belgium \$1,200,000,000, from Rumania \$2,000,000, from Greece \$2,000,000, and from Italy \$2,000,000.

This year France will repay, including interest, \$1,000,000,000, Belgium \$2,000,000,000, the outstanding balance of \$2,000,000,000, and the balance of \$2,000,000,000.

Canada at the end of this year will have repaid \$100,000,000, and her loans for foreign countries will be \$100,000,000.

Britain's debt to Canada, totalling \$200,000,000, was liquidated in 1923.

May Have Federal Rural Credit System

If the present which is now in the hands of the government, it is to be given to farmers to consent to give away their land to the government.

SCHOOL NEWS

The following is the order of the students in grades XI, X and IX for the month of September and October.

Grade XI: (Nine subjects) 1. Margaret Selby, 2. Kathleen Dennis, 3. Alvin Horn, 4. Edmund Vernon, 5. Margie Brown, 6. Edna Vernon, 7. George Thomas, 8. Lucille Bergeron.

Grade X: (Seven subjects) 1. Marjorie Selby, 2. Frank Miller, 3. Leonard Miller, 4. Ernest McLean, 5. Margaret Martin, 6. Sissy Wolfe, 7. Maudie Lee.

Grade IX: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade VIII: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade VII: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade VI: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade V: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade IV: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade III: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade II: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Grade I: (Seven subjects) 1. Howard Duffell, 2. Isabel Cox, 3. Marjorie Wright, 4. Bruce Duffell, 5. Eva Fink, 6. Violet Wright, 7. Lillian Evans.

Rev. T.S. Paton Called To Abbotsford, B.C.

At the services last Sunday Rev. T. S. Paton, the pastor, announced that he had received a call from the Presbyterian Church at Abbotsford, B. C.

Rev. Paton has decided to accept this call.

On Wednesday morning a meeting of the Medicine Hat Presbytery was held in St. John's Church, Medicine Hat, when Rev. Paton was officially installed the call and accepted. Messrs. Wm. Henderson, A. N. Collard and E. Lusher represented the Gordon Memorial Church at this meeting.

Rev. Thos. Wilson, of Medicine Hat, was appointed interim moderator in the vacancy. Rev. Paton will continue his power here until Sunday, Dec. 7th.

Is World Shortage of Bread Grains

The world has an estimated grain shortage of 574,000,000 bushels comprising 401,000,000 bushels of wheat and 173,000,000 bushels of grain. For Europe alone there is estimated wheat shortage of 173,000,000 bushels with last year of 340,000,000 bushels. The shortage of wheat is 173,000,000 bushels of wheat and 173,000,000 bushels of grain.

The shortage of wheat is 173,000,000 bushels of wheat and 173,000,000 bushels of grain.

Armistice Smoker In G.W.V.A. Club

It was a jolly and congenial crowd which assembled at the G. W. V. A. club last Friday evening for the Armistice Smoker.

A good musical program had been prepared for the occasion but the fact that many artists disappointed the committee did not in any way detract from the success of the evening.

The program was quickly filled with willing helpers. So much so that it would be impossible for us to give a list of performers as almost everyone present was called upon to do or say something.

The smoker was held to commemorate the signing of the Armistice. R. S. Hodge, acting president of the club, occupied the chair and during the evening made several fitting remarks in the war, the Armistice, and the future of the world.

The hope that the horrors of the Great War will never be repeated into which the whole world was thrown, would serve as an incentive to people to strive for peace.

The evening was most enjoyable and profitably spent, and as a result many new friends were made. The desire to become associate members of the club.

Premier in Ottawa On Natural Resources

Premier Greenfield and Attorney General Brownlee, of Alberta, conferred with Premier Mackenzie King yesterday morning on the subject of the natural resources to Alberta's. Hon. Mackenzie King was in Ottawa for a number of days.

The Premier was to be present at the conference, but a severe cold confined him to his bed.

It is understood that the conference would have been held in the morning, but the Premier was unable to attend.

The Premier was unable to attend the conference, but he will be present at the conference.

## Shall Parliament Be Supreme?

The decision of a majority of the members of the Board of Railway Commissioners ordering the withdrawal from operation of the Crow's Nest Pass freight rates, raises one of the ugliest domestic issues ever confronting the people of Canada. The question involved in this amazing order is not merely one of dollars and cents to the people based on the rates of freight that will be called upon to pay. Important as this economic aspect of the question may be, it takes into insignificance compared with the legal and constitutional questions involved.

The issue now before the people in Canada is whether the Parliament of Canada is the supreme power in the making of laws, or whether a body of some half-dozen men created by that Parliament to fulfil its nullity and not at all a part of Parliament. By the decision of four members out of six, the Board of Railway Commissioners arrogate to themselves full power to treat an Act of Parliament as "a scrap of paper," and by so doing impose on the people of Canada heavier taxation in the shape of railway freight rates than have the approval of Parliament.

And the Act of Parliament thus flouted is one ratifying and giving effect to a contract entered into by the Government of Canada acting for the people as a whole with the Canadian Pacific Railway. Therefore, another issue raised by the decision of the Board of Railway Commissioners is the sanctity of contracts. If the C.P.R. is not bound to fulfil its contract with the people of Canada as set forth in the Crow's Nest Pass Agreement, the question at once arises whether the people of Canada are bound to fulfil their part of the original C.P.R. contract providing exemption from taxation in perpetuity for C.P.R. property in these Western Provinces.

Furthermore, if the C.P.R. is not bound by its contract to maintain the lower freight rates provided for in the Crow's Nest Pass Agreement, how can the Canadian National Railway, as the successor of the old Canadian Northern, be bound by the rates provided for in the Agreement with the Parliament of Canada under which that railway was extended westward across the prairie?

Under the Crow's Nest Pass Agreement, which the Railway Board now sweeps aside as if no way binding on the C.P.R. in the matter of freight rates as specified in that contract, the C.P.R. received from the people of Canada a cash bonus of \$11,000,000 per mile to assist in the construction of the Crow's Nest Pass railway. The C.P.R. accepted these millions of dollars and thereby obtained direct access to the rich mineral districts of Southern British Columbia and largely secured control of the traffic of that region which formerly has all gone over a short line into the United States. In exchange for this financial assistance the C.P.R. agreed to reduce freight rates on a selected list of articles below the then existing lowest freight tariff. Now the Railway Board rules that the C.P.R. is not bound to live up to its contract, and declares that the power of the Board to thus nullify the contract and impose higher freight rates on the people of Canada is superior to the power of Parliament itself.

Aside altogether from the financial considerations involved, the people of Canada will not for one moment accept the dictum that a Commission created by Parliament is superior to its creator. Under the British form of constitutional government, Parliament is supreme. Courts are created to interpret and administer the laws made by Parliament, but they cannot make laws nor over-ride those passed by Parliament. And the Board of Railway Commissioners are constituted as a Court which hears evidence and renders decisions.

It is true that the Act creating the Board of Railway Commissioners instructs and empowers that Board to remove any discriminations in rates or in traffic arrangements which may exist. It is also to be admitted that the tariffs fixed by the railway companies under the Crow's Nest Pass freight rates did constitute discrimination in various ways and between places. But in exercising its powers and discharging its duty in bringing about a removal of such discriminations, the Board of Railway Commissioners are bound to respect other Acts of Parliament and specific contracts entered into by Parliament. There are other ways of removing the discriminations created by the railways themselves in the freight tariffs fixed by them than to accept the arguments of the lawyers employed by these railways, over-ride an Act of Parliament, and increase rates.

By their decision the majority of members of the Board of Railway Commissioners have raised a real issue in Canada and have started something which they cannot control. Certain it is, the people of Canada will never consent to their disrespecting an inferior position to any other body in the country, and least of all a body which Parliament itself created.

### Breaks Grain Record

The Hutterite colony south of Raymond, Alberta, according to a statement made by its leader recently, has established a new record in grain production. In the five years, the colony has produced more wheat than in all the years of its history. Last year, North Dakota, extending over two decades. In the last five years the Hutterites in the Raymond district have produced 24,600 tonnes of wheat.

The record of a well which has been bored 45,000 feet down the water can be heard through the air only 450 feet.

## The "grain of Mustard"

Don't refuse the mustard when it is passed to you. Cultivate the habit of taking it with meat, especially fat meat. It stimulates the digestion and aids in assimilating your food.

### Crop Prices in 1922 and 1923

Prices Ruled Higher in 1923 Than in Previous Year

Statistical tables in the report of the director of the Dominion Experimental Farms for the year ending March 31, 1924, give comparisons for the years 1922 and 1923 of yields and prices of farm crops in Canada, and a comparison between the yields and prices to the eastern provinces, the prairie provinces, and British Columbia. The tables show an increase in the price for the crops in 1923 compared with 1922, in the case of fall wheat, from \$1.01 to \$1.03 per bushel; flax seed from \$1.72 to \$1.77; corn for husking, from 83 cents to 92 cents; potatoes from 59 cents to \$1.01 per hundredweight; and turnips, mangels, etc., from 54 cents to 59 cents, also per hundredweight. Buckwheat was stationary at 94 cents per bushel.

The total yield of the crops increased in the majority of instances in 1923 over 1922, the exceptions being wheat, which decreased from 23,273,800 bushels to 23,231,800 bushels; peas from 2,170,100 bushels to 2,198,500 bushels; beans from 1,293,300 bushels to 1,041,700 bushels; corn for husking from 13,798,000 bushels to 12,608,000 bushels; potatoes from 65,412,300 bushels to 64,497,500 hundredweight; turnips, mangels, etc., from 4,977,500 hundredweight to 38,115,000 hundredweight; and fodder corn from 5,879,000 tons to 5,320,800 tons.

### RHEUMATIC PEOPLE CAN NOW FIND RELIEF

By Driving the Painful Acid from the System

Rheumatism afflicts people when the blood is thin and water, or charged with impurities, thus setting up inflammation of the joints and muscles. Cold, wet weather or sharp winds may start the pain, but the trouble is rooted in the blood and to get relief the blood must be treated. As a blood builder and nerve tonic, Dr. Williams' Pink Pills will be passed, and for this reason do not fail to give relief to rheumatic sufferers who suffer a lot. Among the rheumatic sufferers who have proved the value of the pills are the late Mr. H. S. Smeen, J. Tutton, Indian Head, Man. "I was suffering from rheumatism for many years," he says, "and I was an intense sufferer from rheumatism. I began the use of Dr. Williams' Pink Pills no treatment that I took helped me any. The trouble grew so bad that I could not move around the house without help, and finally I had to give up and go to bed. Words cannot tell how much I suffered, and I could not bear to have anyone come near me. Finally one of my neighbors suggested that I try Dr. Williams' Pink Pills, and I decided to do so. In the course of a few weeks I felt an improvement, and I was able to get up, kept on my feet, and in all my years of trouble were gone, and I could again go by my own power, feeling like a new person. Three years have passed and I have never had the slightest return of the trouble, so that I feel safe in saying that the relief brought by this medicine is permanent." You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Organize Boy Scouts

Boy Scouts or co-operative societies for honey marketing have been organized in the Maritime Provinces and in the state of the industry in Western Canada, that the coast and prairie provinces are expected to recognize similar organizations in operation before the end of the season. The next important step, and the keystone of the superstructure, will in all probability be a central selling organization.

Women and Asthma. Women are numbered among the sufferers from asthma by the thousands. In every climate they will be found, highest in the grip of this relentless disease unless they have turned to the help of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many women. "For years I suffered from asthma without relief, and the enormous benefit it has wrought among women everywhere."

### Prairie Indians Prospects

According to Indian Commissioner W. M. Graham, the Indians of the prairie provinces were never in such a prosperous condition as they are at the present time. There is a prospect of a splendid catch of fur-bearing animals this fall, he says.

No one need endure the agony of heartache from Holloway's Cure Remover at hand to remove them.

Manager: "You'd like to be off this afternoon to 'bury your aunt'?" Clerk: "Y-yes, sir; if I don't rain."

Ice from century-old glaciers is used at an Alaskan cannery to keep fish fresh while being shipped to the markets.

Although vanity is supposed to be a feminine trait, one doesn't have to scratch very deep to find it in a man.

Many a man who wouldn't make a wife of his cook makes a wife of his.

### Manitoba Man Wins Scholarship

Selected For Scholarship Endowed by W. C. Macdonald, Reg'd. Inc., Tobacco Manufacturers, Montreal

R. M. White, a native of Burlington, Man., has been selected as Manitoba nominee for a \$500 post-graduate scholarship in scientific agriculture, tenable at Macdonald College, Anne de Bellevue, Que., and leading to the degree of M.Sc. This is one of the scholarships annually donated by W. C. Macdonald Reg'd. Inc., tobacco manufacturers of Montreal. Under the terms of the gift two of the scholarships are awarded to Quebec nominees, this by reason of the bilingual situation there. The remaining eight go to each province.

In donating these scholarships, which have an aggregate value of \$5,000 each year, W. C. Macdonald, Reg'd. Inc., is adhering to the policy of its founder, the late Sir William Macdonald, C.B., whose lifetime gave many millions of dollars for the advancement of scientific and technical education in the Dominion of Canada.

William Macdonald remained in the firm when the fact was not apparent to others, that progress in the Dominion would depend in a large measure upon the facilities offered for scientific and technical education. Without education in these lines being readily available it would be impossible for the country to develop the country's natural resources to advance its back industry, agriculture. Accordingly he gave away money. Part of his princely benefactions established and maintain Macdonald College, St. Anne de Bellevue, where these scholarships are tenable and which is one of the finest institutions of its kind in the Empire.

Part of them went to the establishment of a faculty of engineering at McGill University, Montreal. Another part went to the establishment of the Manitoba Agricultural College at Guelph. Mr. White, who represents Manitoba in this year's post-graduate course, took grades 2, 10 and 21 in the Meridon High School in '04, '05 and '06, and spent the following two winters in the Manitoba Agricultural College. From 1909 until the outbreak of war he was engaged in various capacities in Manitoba mathematics and engineering.

He became interested in entomology and obtained a position at Trent Park where he is now spending his third summer. He was in France from December 1914 to March 1915, and was wounded at Cambrai in October, 1918. He returned home in March, 1919, and spent the following year on the farm near Burlington, later securing a position as field supervisor with the Soldier Settlement Board of Alberta. He spent nearly a year and a half at this work and then registered for his B.S.A. at Manitoba Agricultural College. He became interested in entomology and obtained a position at Trent Park where he is now spending his third summer. He was in France from December 1914 to March 1915, and was wounded at Cambrai in October, 1918. He returned home in March, 1919, and spent the following year on the farm near Burlington, later securing a position as field supervisor with the Soldier Settlement Board of Alberta. Another vital factor in the progress of the Dominion will be found in its educational system. Education is free to everybody, and all children attend the same schools. No feeling of inequality is created in this way. The intelligence of the whole mass of the people is given a free vent, and we possess in real truth and actuality that equality of opportunity of which the democrat has always dreamed. And this is the reason why the progress of the country is making largely to the fact that there is nothing to prevent any lad in any walk of life today taking the place and playing the role now occupied by men like Sir Vincent Massey and Sir Horbert Holt—as the new

Information these booklets contain, according to Dr. Black, and it is evident from the tone of these that hundreds of people who are looking towards Canada as a future home will spend the winter evenings studying to prepare themselves, as well as they can, to become adaptable settlers.

**Holds Unusual Job**

A job such as few women ever enjoyed is that held by a Miss William for 20 years has been the office of a ship reporter at Highland Light, the tip end of Cape Cod. Day in and day out, holidays and Sundays and she watches the ships that pass the window. Identifies them and telegraphs the information to the office of a

**Money and Contentment**  
Every poor man seems to believe that the man who has a hundred times more money, is a hundred times happier, and a hundred times better off. It is a false notion. I have known a good many rich people, miserably, but they seemed no more content than I am.—E. W. Howe's Monthly

Regular passenger train services have been established by the Company on all these lines.

Several of the largest construction jobs completed recently in California, and vicinity, were carried out by a woman contractor, Mrs. J. O'Brien.

of Manchuria. Miss Kibe's father is a contractor, furnishing supplies to the Manchurian war lord.

the situation. In other words, health is in our own hands. Give the men and the means, there is probably no secret which cannot be reached. In the past the world has been con-

secured, supplementing that derived from the wheat crop and material in improving the condition of the farms in Western Canada.

## Here and There

A contract has been let in Alberta for the erection of fifty cottages for fishermen who are coming in the spring, on the main line of the Canadian Pacific Railway, between Edmonton and Red Deer, and on the Hardisty line, as far east as Strom.

The dances, customs and folklore of Old Quebec are still alive and show no signs of decline. Thousands of persons recently witnessed a performance of these at the Monument National, Montreal, and joined heartily in the well-known choruses which have made the picturesque aspect of Quebec world-famous.

The pilotriver Texan is rapidly nearing completion at the B.C. Marine, Vancouver, B.C., and will be ready for launching soon. This pilotriver will be the largest in the world. It is being built for the Sydney Jenkins Company for use in the construction of the new ship B.C. for the Canadian Pacific Railway.

Erected at the cost of \$200,000, one of the handsomest marine terminals of the Canadian Pacific Railway was recently completed at Victoria, B.C. The terminal houses the general offices of the British Columbia Coast Service of the Canadian Pacific. The main building is 122 feet long, 54 feet wide and three stories high, with a fourth story erected centrally over the structure.

Russia will never again rival Canada as a wheat exporter, according to L. W. Lyde, Professor of Geography at London (England) University. He believes that grain growing in future lies with the Canadian farmer. Russia cannot properly supply its own needs. Pre-war export of wheat was purely artificial, drawn, not from a natural surplus, but from the needs of a very poor and ignorant peasantry.

A twenty per cent increase in the business over the Dominion Atlantic Railway, serving Nova Scotia, was the approximate summary of the summer's travel recently given by P. O. J. Conner, General Traffic Agent of the line. This is attributable to the growing appreciation of the beauties of the Annapolis Valley and the charm of the Orangeville country among tourists everywhere.

An extensive programme is being prepared in connection with the winter sports activities of the Canadian Pacific Railway's famous hotel at Quebec. E. De Baillat, newly appointed sports director for the hotel, is planning the formation of the Frontenac Winter Club and the holding of competitions in curling, skiing, ski-joring, skating and other pastimes of the season.

Surprise packets in the shape of crates containing two lions, a male cub and a full grown female, constituted the most interesting shipment handled by the Montreal and Toronto offices of the Dominion Express Co. this year. The animals, exchanged for specimens of Canadian deer, recently arrived from Dublin and were dispatched over Canadian Pacific lines to their destination, the zoological gardens at Toronto. Needless to say, they were carefully handled.

## REDUCTION IN FARM IMPLEMENTS NEXT YEAR

"We implement manufacturers fully realize that the farmers and ourselves must move hand in hand, and so far as my firm is concerned, I may say that next year there will be a noticeable reduction in prices," stated A. E. Mett, president of the Cockshutt Plow Co., of Bradford, Ont., in an interview.

## HERDS OF ANTOLOPE ARE SEEN AROUND TABER

Deep snow seems to be driving wild antelope closer to towns and into the grain fields. Nearly a hundred antelopes, one hundred in one place alone, are feeding in the fine snow at Taber.

Wild mice are thick at Chin Lake and rabbits are being shot by dozens. Farmers are picking up the larder with both wild geese and rabbits.

My choice for aged, mature quality!

This advertisement is not published or displayed by the Liquor Control Board or the Government of Alberta.

## Crossed Atlantic Unafraid

Little Sarah's Mother's letter. A very pathetic figure, as he stepped off the Canadian Pacific train, between the conductor and an official of the department of immigration, into the noise of shunting trains, the confusion of hurrying express trucks, and the bustle that attends the arrival and departure of friends, Samuel Mayne, 292 Oakwood Avenue, Toronto, as the label on his little bag proclaimed him, passed for a moment, and then, overcome by a sense of loneliness produced by the loss of his friends of ship-board and train, burst into tears. A second later he was seized by his mother from one and a half of his four years, and sobbed himself to contentment in her arms.

Samuel came to Canada on the Montclair, making the complete trip from the old land to Toronto by himself. Samuel was a favorite on ship-board, according to reports. He became particularly attached to the ship's nurse but was the pet of all the passengers and crew.

## CONSERVATIVES HOLD CONVENTION IN TORONTO

Conservative representatives from all over Canada held a conference in Toronto this week. Hon. Arthur Meighen, leader of the party and officers for a dominion wide organization, were present. During his address to the convention, he stated that Hon. J. E. Brownlee, attorney general of Alberta, was an excellent type of T. A. Greer, who, he said, is the dictator of this province.

Mrs. R. J. Russell, of Edmonton, and Hon. R. B. Bennett, of Calgary, were elected vice presidents from Alberta. Twenty-two good purchased Holstein cows, two years old and over, were sold by the Canadian Pacific Railway at an average of \$225. There were also five young bulls sold that averaged \$124. These were all from the Strathmore C. P. R. demonstration farm, where the C. P. R. maintains the largest purchased herd of Holsteins in Canada.

# THE REDCLIFF REVIEW

## FINISHED IF NOT POLISHED

Left: The train. Right: The first pit. The work was done in the "old" and "new" pits and the "old" and "new" pits.

In the opinion of the expert railroad builder the work was done in the "old" and "new" pits and the "old" and "new" pits.

Five thousand car-loads of this to complete the work in actual weight was over two million tons.

It is rock-blasting that is the final touch in the construction of the Canadian Pacific line. The work is done in the "old" and "new" pits and the "old" and "new" pits.

Then came car-loads of new stone ballast, already in the slightest degree, a fact which had been the corner of the track. The gang that followed stones solidly underneath every tie. That was the day the track was laid. More stone followed and the job was finished.

Then came car-loads of new stone ballast, already in the slightest degree, a fact which had been the corner of the track. The gang that followed stones solidly underneath every tie. That was the day the track was laid. More stone followed and the job was finished.

## Interesting Local Items

Good assortment of Toys at the  
Broadway Department Store.

Christmas Cakes at the Broadway  
Department Store.

A nice line of new and nifty ladies  
and gents' Hosiery at the Broadway  
Department Store.

Dominion observance officials say  
there will be a total eclipse of the sun  
on Jan. 24th.

A. P. and Joseph McDonald of  
Maple Creek district, were found  
guilty of horse rustling.

Two men in Calgary were suffocated  
by gas poisoning which escaped from  
defective gas pipes in the furnace.

At the convention of Union of Alberta  
Municipalities held here last week,  
Mayor Huxtable of Medicine Hat was  
elected president for the next year.

E. Wiese of Gros Ventre, was arrested  
on the charge of cattle stealing. He  
had his preliminary hearing at Irvine  
and is now out on a \$4,000 bail till  
his trial comes off.

A. E. Tuxter built to this office  
today a nice stalk in bloom. Despite  
the fact that the plants had been  
covered with more on his lawn, they  
were still in bloom and unharmed by  
frost when the snow cleared away.  
Mr. Tuxter says his lawn is still quite  
green.

What might be described as the  
height of ingratiation happened the  
other night when, after being en-  
tertained and liberally treated all evening,  
two guests broke into the prem-  
ises of their hosts and stole some of  
their goods. There are evidently still  
those who would mind the fountain  
that gives them drink.

S. E. Gust is in Calgary for a few  
days this week on business.

Walter Rutherford who has been in  
British Columbia for the past year,  
returned to town last Saturday.

The C. P. R. has withdrawn its ap-  
plication to exalt the passenger ser-  
vice on the Crow's Nest line. Trains  
will, therefore, run daily as usual on  
this line.

Keep in mind the sale of work this  
afternoon and the white drive and  
special tonight in Cliff Hall, under the  
auspices of B. M. Mary's Altar Society.

Wouldn't someone who brings  
in meat to town to sell, that before  
offering any for sale they must see  
the town constable and get his O.K.  
Otherwise you may have to appear in  
court.

At the meeting of the local Liberal  
association held last Monday evening,  
R. S. Hodge was selected as a dele-  
gate to represent Redcliff at the Lib-  
eral convention in Calgary on next  
Thursday.

Cecil Young, who has been in the  
British district all fall is spending a  
few weeks in town. Cecil has been dis-  
tinguished in the past by his success in  
which he has been most successful. It  
is reported he is now getting in shape  
to meet Dempsey.

Keen interest in chess shown in the  
Bridge Club recently organized in  
town. A schedule has been arranged  
and games will be played each week  
till the schedule is completed. As  
each player has a schedule the draw  
will not be published as announced  
last week. To date two rounds have  
been played.

Owing to present conditions in town  
Dave Levine, who opened up a gent's  
furnishings store a few months ago,  
has decided to discontinue business  
here for the present and move his  
stock to Uxbridge. Dave wishes us  
to extend his thanks to his customers  
and to announce that he may return  
later when conditions return to normal  
again.

South of Post Office

Spasms with great and sudden onset  
and of the kind that is so common  
in the case of the epileptic. The  
patient is usually unconscious and  
the attack is usually followed by a  
prolonged period of unconsciousness.

A prisoner who was being escorted  
from Ottawa to Vancouver to answer  
to a charge of burglary, jumped off  
the train just west of Medicine Hat  
last Tuesday evening. The police in  
charge followed him and although the  
overland and local police have been  
assisting in the hunt, the fugitive is  
still at large.

The Vets' United football club of  
Medicine Hat are holding a banquet  
on the G. W. V. hall in that city  
on Friday night of this week. A  
number from Redcliff have received  
invitations to be present.

Mike Stupendi, of Medicine Hat,  
was held up and robbed in that city  
last Friday night. He was bound and  
suffered and relieved of \$10.00 and a  
gold watch. He was left by the road-  
side bound and did not secure help  
for over an hour.

The shows in the Empress theatre  
here on Monday and Tuesday of the  
week were of an exceptionally high  
order. Betty Ballou, the popular  
English actress took the leading part  
in the picture Mrs. McGreegor's Sweet-  
heart. A third did not secure help  
accompanying the picture and added much  
to the enjoyment of the audience. The  
more plentiful show are billed for the  
week end and next Monday and Tues-  
day.
